Cool Finds!

By Bir Ganguly

Momints liquid mint breath-fresheners are just made for carriage convenience. The superthin tubes containing eight highly potent mint drops can be slipped into the pocket of your skinniest jeans, wallet, or anywhere else without creating the least unsightly bump. What more, the iridescent globules of mint extract are zero-calorie/zero-carb and favored by celebrities and models, including Jude Law and Giselle Bundchen.

Momints pouch tubes (\$0.50) and full size packs (\$1.69) are available at Barnes & Noble College Bookstores, CVS pharmacies, and other retail outlets.
