MOMENTOUS MINT Tiny mints have a big taste wallop

Good things come in small packages, and that is the case with **Momints** -- powerful liquid mint balls. They may be small as a BB, but they pack a taste wallop like a hand grenade. Don't be tempted to pop a handful of these mints or your mouth will explode with mint flavor. They come in packages of 36 mints (\$1.69) and little tubes containing eight (50 cents).
